

Animator

About us

The Progress Film Company was founded *by* filmmakers, *for* filmmakers. Brought together by our passion for making breathtaking content and independent films, our award winning studio by the sea is making waves. Our unique company model and amazing variety of clients means that each project feeds the next, allowing us to think big and, most importantly, make films we love.

What we need from you

At Progress, we love people with vision. As a talented, hands-on Animator, you know how to make something from nothing. You take a client's thought bubble and turn it into a reality, pushing creative boundaries to produce stunning visual storytelling through cutting edge animation and motion graphics ready for sharing on any platform. Bursting with ideas, we want to give you the opportunity to explore your concepts and create something amazing.

You're a perfectionist to the point of obsession. This isn't a job ad but the opportunity to pursue your passion.

We're looking at all experience levels. If you think we need your talent and ambition in our Brighton studio, send us your details and an up to date showreel to tell us why.

Must haves

- A stand out showreel of animated work you have created
- An obsession with the latest trends and technology in Animation and Motion Graphics that you can't stop talking about
- High concept ideas but real world communication skills - you're flexible and realistic enough to know that every project requires a different approach, depending on timelines and budgets
- The ability to capture someone's imagination through conceptualising, storyboarding, creating and delivering animations

- Painfully meticulous attention to detail
- An infectious and collaborative positive attitude - whether you're leading or supporting a project
- The dogged determination to go above and beyond to exceed expectations

We give you

- A lively studio in the heart of Brighton
- Opportunity to pitch on work for incredible brands

The technical side

- We will consider applicants from all levels, graduate through to experienced. A solid understanding of Adobe CC workflow including After Effects, Photoshop, Illustrator and Premiere is a good starting point for this position
- Basic skill include ability to rig layered compositions, use cameras, track mattes, motion tracking, green screen and 2D animation
- Ideally you will have 3D animation skills which you can bring to our company (cinema 4D or Maya)

Salary

Remuneration based on experience.

How to apply

If this sounds like you, visit progressfilmco.uk and follow via @ProgressFimCo to find out more about us, before sending us your showreel and a explanation of why we need you as part of our team

Please send CVs and cover letters to hello@progressfilm.co.uk
